

Data Sharing/Opt out form

(Under the GDPR and Data Protection Act 2018)

To complete your registration please fill in this form as we need your explicit consent to share your information for the purpose of your care.

We will only use or pass on identifiable information about you with other health professionals who are involved in the direct provision of your care. We will not disclose your identifiable information to anyone else without your permission unless in exceptional circumstances (i.e. life or death situations), or where the law requires it.

The NHS currently uses your information in an anonymous and safe way to:

- protect the health of the public
- help us anticipate, plan and provide care
- audit and monitor the quality of services provided

However, you can ask for your information not to be shared outside of the practice. Please complete the **Data sharing opt-out form** if you **do not** wish your information to be shared. If you decide to opt out it will not affect your entitlement to care. However, it may result in the delivery of your care being less efficient as clinicians will not see your full medical history.

A Data Sharing information leaflet is attached for guidance.

Name: **Date of Birth:**

Address:

Data for research

I do not wish identifiable data about me to leave the practice

I do not wish data about me to be shared by HSCIC

Summary care Record

I do not wish to have a Summary care Record
(N.B. this will mean NHS Healthcare staff caring for you may not be aware of your current medications, any allergies or reactions to previous medication.)

Hampshire Healthcare Record/CHIE

I do not wish to have a Hampshire Healthcare Record

TPP SystemOne (Practice Clinical Computer System)

I agree to information about me being shared with other services using TPP medical systems

I do not agree to information about me being shared with other services using TPP medical systems

I agree to the practice seeing information recorded at other services using TPP systems.

I do not agree to the practice seeing information recorded at other services using TPP systems.
